

BOB MAYBERRY FOUNDATION

WWW.BOBMAYBERRYFOUNDATION.ORG

Did you know: more people- men and women- die each year from lung cancer than any other type of cancer? Currently, lung cancer accounted for more deaths than breast cancer, prostate cancer, and colon cancer combined. Only 50% of people treated for stage IV lung cancer live for 1 year. Approximately 20% of all lung cancer diagnoses are with patients whom have never smoked in their lives. Yet, because of the stigma associated with the disease, lung cancer research remains extremely under-funded.

For example, for every person who dies of breast cancer, approximately \$27,000 is spent on research compared to less than \$1,200 for each person who dies of lung cancer. Breast cancer survival rates are 89% after 5 years, while lung cancer rates are less than 15%.

The Bob Mayberry Foundation is a 501(c)(3) foundation that was founded in 2008 by Diane Judah-Mayberry to honor the life of Bob Mayberry, a non-smoker, and his 5 year battle with lung cancer. The purpose of the foundation is to raise money and awareness for the cause of lung cancer research. Since our inception, we have partnered with Dr. William N. William, Bob's Oncologist at M.D. Anderson Cancer Centre in Houston, Texas. We have had 8 successful events and are now preparing for our 10th event to be held on Saturday, October 28th, 2017, at Lakeway Resort and Spa in Lakeway, Texas. 100% of all proceeds are sent to M.D. Anderson for continued research. To date, we have raised over \$300,000.

We are dedicated to working with MD Anderson and Dr. William N. William to help raise money and awareness about a Lung Cancer Research. MD Anderson's research project B.A.T.T.L.E. focuses on biopsying each individual's tumor and studying the specific cancer markers within the tumor which are unique in every case. By using these methodologies, the days of pre-prescribed treatment for all patients can be revolutionized so that each person is given a specific treatment plan which matches their individual needs. To date, the B.A.T.T.L.E. Program has successfully completed its first round and results have allowed for second and third round trials to start.

The Bob Mayberry Scholarship was first awarded in 2011.
We look forward to receiving applications and essays from eligible students.

Thank you for supporting the fight against lung cancer. Together, we can make a difference.

Sincerely,

Diane Judah-Mayberry
